MSFSS00002 Insulating Glass Unit Manufacturing Skill Set

Release 2

MSFSS00002 Insulating Glass Unit Manufacturing Skill Set

Modification History

Release 2 - Imported units updated. Equivalent.

Release 1 - New Skill Set

Description

This Skill Set has been developed for the upskilling of existing glaziers in the requirements for the manufacturing of insulated glass units (IGU's) so as to conform to the new standards of a growing market.

Pathways Information

This Skill Set can only be achieved after completion of MSF30413 Certificate III in Glass and Glazing, or equivalent qualification at a similar qualification level.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply directly to this Skill Set at the time of publication. However, in some jurisdictions licensing or regulatory requirements may apply. Users are required to check local requirements.

Skill Set Requirements

MSMWHS300 Facilitate the implementation of WHS for a work group

MSFGG3001 Store and handle glass

MSFGG3005 Process glass by semi-automatic machines

MSFGG3006 Process glass by automatic machines

MSFGG3013 Set up and operate insulated glass unit (IGU) manufacturing equipment

MSS402051 Apply quality standards

Target Group

People currently employed, or future employees, engaged in the manufacture of insulating glazing units (also known as double glazing units).

Suggested words for Statement of Attainment

These competencies from the MSF30413 Certificate III in Glass and Glazing meet the minimum industry requirements for the manufacture of insulating glazing units as defined in AS/NZS4666.
