MSFSS00009 Insulating Glass Unit Manufacturing

Release: 1

MSFSS00009 Insulating Glass Unit Manufacturing

Modification History

Release 1. Supersedes and is not equivalent to MSFSS00002 Insulating Glass Unit Manufacturing.

Description

This Skill Set has been developed for the upskilling of existing glaziers in the requirements for the manufacturing of insulated glass units (IGU's) so as to conform to the new standards of a growing market.

Pathways Information

This Skill Set can only be achieved after completion of MSF30413 Certificate III in Glass and Glazing, or equivalent qualification at a similar qualification level.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply directly to this Skill Set at the time of publication. However, in some jurisdictions licensing or regulatory requirements may apply. Users are required to check local requirements.

Skill Set Requirements

- MSMWHS300 Facilitate the implementation of WHS for a work group
- MSFGG3039 Manually move glass
- MSFGG3042 Process glass by semi-automatic machines
- MSFGG3030 Process glass by automatic machines
- MSFGG3041 Set up and operate insulated glass unit (IGU) manufacturing equipment
- MSS402051 Apply quality standards

Target Group

People currently employed, or future employees, engaged in the manufacture of insulating glazing units (also known as double glazing units).

Suggested words for Statement of Attainment

These competencies from the MSF30413 Certificate III in Glass and Glazing meet the minimum industry requirements for the manufacture of insulating glazing units as defined in AS/NZS4666.
