Assessment Requirements for MSMPMC307 Operate a calcining kiln

Release: 1

Assessment Requirements for MSMPMC307 Operate a calcining kiln

Modification History

Release 1. New unit. Supersedes and is equivalent to PMC552010 Operate a calcining kiln.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- set up, configured, started and operated the calcining kiln to achieve required output according to procedures on at least 1 occasion, including:
 - recognising possible causes of the following routine problems:
 - raw material variations
 - mechanical abnormalities
 - electrical and instrument reading variations.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- principles of calcining process
- calcining tools and equipment, including:
 - functions, limitations
 - start up, operation and shutdown procedures
- composition and nature of raw materials and finished product
- the potential effects of variations in raw materials and process conditions in relation to quality of product and output
- routine problems and factors which may affect product quality or production output, their probable causes and relevant corrective actions
- sequence of isolation procedures and related hazards
- signals and alarms
- enterprise production schedules
- work health and safety (WHS) requirements relevant to work outcome
- calcining hazards and:
 - their possible causes
 - potential consequences
 - risk control procedures.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - calcining equipment and ancillary equipment
 - raw materials
 - specifications, procedures and job sheets
- modelling of industry operating conditions, including:
 - routine and non-routine problems.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
