Assessment Requirements for MSMPMC400 Carry out stock control

Release: 1

Assessment Requirements for MSMPMC400 Carry out stock control

Modification History

Release 1. New unit. Supersedes and is equivalent to PMC563081 Carry out stock control

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- carried out stock control for at least 1 store, warehouse or plant, including monitoring the following key variables:
 - production requirements
 - stock levels
 - reorder levels
 - quantity and quality of deliveries
 - supplier contracts
 - stock condition
- identified discrepancies in stock quantities and/or quality.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- methods of monitoring production requirements and stock availability
- effective inventory management techniques to meet production requirements
- supplier contractual requirements
- stock control, stocktaking and cycle counting techniques
- optimum stock levels and relationship with cost
- methods of identifying and rectifying variations to quality and quantity of delivered goods
- methods and criteria for sourcing alternative suppliers
- routine and non-routine problems that may arise, the range of possible causes and appropriate actions
- stock control hazards and:
 - their possible causes
 - potential consequences
 - risk control procedures.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies, as well as, using suitable facilities, equipment and resources.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
