Assessment Requirements for MSMRV375 Complete installing recreational vehicle walls and roofs

Release: 1

Assessment Requirements for MSMRV375 Complete installing recreational vehicle walls and roofs

Modification History

Release 1. Supersedes and is not equivalent to MSMRV318 Fit cladding to a recreational vehicle, MSMRV314 Construct and fit roof to a recreational vehicle and MSMRV319 Fit front and rear moulds to a recreational vehicle. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed. Workplace outcome has changed.

Performance Evidence

There must be evidence that the candidate has completed the tasks set out in the elements and performance criteria and has demonstrated the ability to complete installing the walls and roof of a recreational vehicle on at least three occasions.

Knowledge Evidence

There must be evidence the candidate knows:

- requirements relevant to the performance criteria of:
 - *AS/NZS 5601.2 Gas installations LP Gas installations in caravans and boats for non-propulsive purposes*
 - *AS/NZS 3001 Electrical installations - Transportable structures and vehicles including their site supplies,*
 - the *Road Vehicle Standards Act 2018*
 - Australian design rules
- types of recreational vehicle moulding, checkerplate, fasteners, insulation and cladding and manufacturer's installation and use instructions for them
- which hand and power tools and equipment to use when completing installing recreational vehicle walls and roofs
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - completing installing recreational vehicle walls and roofs
 - communication and reporting
 - environmental protection and sustainability, including adhesives, dust, noise and waste
 - quality assurance
 - work health and safety, including personal protective equipment
 - work planning
- hazards that might arise in the work environment and their controls
- the most common issues that can arise when completing the installation of recreational vehicle walls and roofs and how to avoid and respond to them

- how to identify if checker plate, moulding and insulation and cladding are installed correctly.

Assessment Conditions

Skills must have been demonstrated in the workplace or a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required to complete installing recreational vehicle walls and roofs including:
 - recreational vehicles manufactured to the point of having frame structures installed
 - materials and items required for the tasks
 - hand and power tools and lifting, safety and other equipment
 - job instructions and workplace procedures.

Assessors of this unit must satisfy the NVR/AQTF mandatory competency requirements for assessors.
