Assessment Requirements for MSMRV381 Repair recreational vehicle walls and roofs

Release: 1

Assessment Requirements for MSMRV381 Repair recreational vehicle walls and roofs

Modification History

Release 1. Supersedes and is not equivalent to MSMRV352 Remove and replace a recreational vehicle sidewall cladding, MSMRV358 Modify the body of a recreational vehicle and MSMRV361 Repair dry rot in a recreational vehicle. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed. Workplace outcome has changed.

Performance Evidence

There must be evidence that the candidate has completed the tasks set out in the elements and performance criteria and has demonstrated the ability to repair:

- the roof of a recreational vehicle on at least two occasions
- a wall of a recreational vehicle on at least two occasions.

On at least one of the above occasions, the initial assessment must identify the need for out-of-scope repairs.

Knowledge Evidence

There must be evidence the candidate knows:

- requirements relevant to the performance criteria of:
 - *AS/NZS 5601.2 Gas installations LP Gas installations in caravans and boats for non-propulsive purposes*
 - *AS/NZS 3001 Electrical installations - Transportable structures and vehicles including their site supplies,*
 - the *Road Vehicle Standards Act 2018*
 - Australian design rules
- types of recreational vehicle walls and roofs and how they are constructed and installed
- which hand and power tools and equipment to use when repairing recreational vehicle walls and roofs
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - repairing recreational vehicle walls and roofs
 - communication and reporting
 - environmental protection and sustainability, including adhesives, dust, noise and waste
 - quality assurance
 - work health and safety, including personal protective equipment
 - work planning
- hazards that might arise in the work environment and their controls

- the most common issues that can arise when repairing recreational vehicle walls and roofs and how to avoid and respond to them
- how to identify if recreational vehicle walls and roofs have been repaired correctly.

Assessment Conditions

Skills must have been demonstrated in the workplace or a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required to repair recreational vehicle walls and roofs including:
 - recreational vehicles with walls and roofs in need of repair
 - materials and items required for the tasks
 - hand and power tools and lifting, safety and other equipment
 - job instructions and workplace procedures.

Assessors of this unit must satisfy the NVR/AQTF mandatory competency requirements for assessors.
