Assessment Requirements for MSMRV383 Repair recreational vehicle windows, doors and external items

Release: 1

Assessment Requirements for MSMRV383 Repair recreational vehicle windows, doors and external items

Modification History

Release 1. Supersedes and is not equivalent to MSMRV357 Remove and replace external components of a recreational vehicle, MSMRV365 Remove and refit body moulding and MSMRV350 Remove and replace recreational vehicle roof. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed.

Performance Evidence

There must be evidence that the candidate has completed the tasks set out in the elements and performance criteria and has demonstrated the ability to repair:

- a window of a recreational vehicle on at least two occasions
- a door of a recreational vehicle on at least two occasions
- an external item on a recreational vehicle on at least two occasions.

On at least two of the above occasions, the initial assessment must identify the need for out-of-scope repairs.

Knowledge Evidence

There must be evidence the candidate knows:

- requirements relevant to the performance criteria of:
 - *AS/NZS 5601.2 Gas installations LP Gas installations in caravans and boats for non-propulsive purposes*
 - *AS/NZS 3001 Electrical installations - Transportable structures and vehicles including their site supplies*
 - the *Road Vehicle Standards Act 2018*
 - Australian design rules
- types of recreational vehicle windows, doors and external items and manufacturer's installation and use instructions for them
- which hand and power tools and equipment to use when repairing recreational vehicle windows, doors and external items
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - repairing recreational vehicle windows, doors and external items
 - communication and reporting
 - environmental protection and sustainability, including adhesives, dust, noise and waste
 - quality assurance
 - work health and safety, including personal protective equipment
 - work planning

- hazards that might arise in the work environment and their controls
- the most common issues that can arise when repairing recreational vehicle windows, doors and external items and how to avoid and respond to them
- how to identify if recreational vehicle windows, doors and external items have been repaired correctly.

Assessment Conditions

Skills must have been demonstrated in the workplace or a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required to repair recreational vehicle windows, doors and external items including:
 - recreational vehicles with windows, doors and external items in need of repair
 - materials and items required for the tasks
 - hand and power tools and lifting, safety and other equipment
 - job instructions and workplace procedures.

Assessors of this unit must satisfy the NVR/AQTF mandatory competency requirements for assessors.
