Assessment Requirements for MSMRV384 Repair recreational vehicle internal items

Release: 1

Assessment Requirements for MSMRV384 Repair recreational vehicle internal items

Modification History

Release 1. Supersedes and is not equivalent to MSMRV359 Install additional appliances in a recreational vehicle and MSMRV358 Modify the body of a recreational vehicle. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed.

Performance Evidence

There must be evidence that the candidate has completed the tasks set out in the elements and performance criteria and has demonstrated the ability to repair three different internal items in a recreational vehicle where at least one repair requires the removal of an item that cannot be repaired in situ.

With at least one repair, the initial assessment must identify the need for out-of-scope repairs.

Knowledge Evidence

There must be evidence the candidate knows:

- requirements relevant to the performance criteria of:
 - *AS/NZS 5601.2 Gas installations LP Gas installations in caravans and boats for non-propulsive purposes*
 - *AS/NZS 3001 Electrical installations - Transportable structures and vehicles including their site supplies*
 - the *Road Vehicle Standards Act 2018*
 - Australian design rules
- types of recreational vehicle internal items and manufacturer's installation and use instructions for them
- which hand and power tools and equipment to use when repairing recreational vehicle internal items
- workplace policies and procedures relevant to their job role and responsibilities
 - repairing recreational vehicle internal items
 - communication and reporting
 - environmental protection and sustainability, including adhesives, dust, noise and waste
 - quality assurance
 - work health and safety, including personal protective equipment
 - work planning
- hazards that might arise in the work environment and their controls
- the most common issues that can arise when repairing recreational vehicle internal items and how to avoid and respond to them

- how to identify if recreational vehicle internal items have been repaired correctly.

Assessment Conditions

Skills must have been demonstrated in the workplace or a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required to repair recreational vehicle internal items including:
 - recreational vehicles with internal items in need of repair
 - materials and items required for the tasks
 - hand and power tools and lifting, safety and other equipment
 - job instructions and workplace procedures.

Assessors of this unit must satisfy the NVR/AQTF mandatory competency requirements for assessors.
