MSMRV387 Conduct recreational vehicle predelivery checks

Release: 1

MSMRV387 Conduct recreational vehicle predelivery checks

Modification History

Release 1. Supersedes and is equivalent to MSMRV363 Complete pre-delivery check of a recreational vehicle. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed.

Application

This unit describes the skills and knowledge required to conduct predelivery checks on a serviced, repaired or modified recreational vehicle before being returned to the customer.

The unit applies to a person working in a recreational vehicle service and repair facility who undertakes routine tasks according to work instructions, plans/specifications and procedures and uses discretion and judgement in selecting equipment, services or contingency measures. They work with a high degree of self-direction and limited supervision. They apply known solutions to routine problems and report non-routine problems according to procedures. They are responsible for their output and have limited responsibility for the output of others.

No licensing or certification requirements exist at the time of publication. Relevant legislation, industry standards and codes of practice within Australia must be applied.

Pre-requisite Unit

None

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare to conduct the predelivery checks	1.1 Identify the scope of work and work undertaken from job instructions and workplace documents 1.2 Verify that all in-scope works are completed 1.3 Identify the predelivery checks applicable to the completed works 1.4 Select and check all required tools and equipment are ready to use 1.5 Identify hazards and hazard controls and check the hazard controls are in place and operating 1.6 Check the recreational vehicle and work area are ready to conduct the predelivery checks
2.1 Conduct predelivery checks applicable to the	2.1 Conduct predelivery checks applicable to the completed works

Elements	Performance Criteria

Assessment Requirements for MSMRV387 Conduct recreational vehicle predelivery checks

Modification History

Release 1. Supersedes and is equivalent to MSMRV363 Complete pre-delivery check of a recreational vehicle. Changes to application, elements, performance criteria and assessment requirements. Range of conditions removed.

Performance Evidence

There must be evidence that the candidate has completed the tasks set out in the elements and performance criteria and has demonstrated the ability to conduct predelivery checks of a serviced, repaired or modified recreational vehicle on at least three occasions.

On at least one of the above occasions, the predelivery check must identify deficiencies to be rectified.

Knowledge Evidence

There must be evidence the candidate knows:

- requirements relevant to the performance criteria of:
 - *AS/NZS 5601.2 Gas installations LP Gas installations in caravans and boats for non-propulsive purposes*
 - *AS/NZS 3001 Electrical installations - Transportable structures and vehicles including their site supplies*
 - the *Road Vehicle Standards Act 2018*
 - Australian design rules
- types of technical information relevant to conducting recreational vehicle predelivery checks and how to interpret that information
- which inspection and adjustment hand and power tools and safety and other equipment to use when conducting recreational vehicle predelivery checks
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - conducting recreational vehicle predelivery checks
 - communication and reporting
 - environmental protection and sustainability, including adhesives, dust, noise and waste
 - quality assurance
 - work health and safety, including personal protective equipment
 - work planning
- hazards that might arise in the work environment and their controls
- the most common issues that can arise when conducting recreational vehicle predelivery checks and how to avoid and respond to them

- how to identify deficiencies in recreational vehicle servicing repair and modification that predelivery checks must identify.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required to conduct recreational vehicle predelivery checks including:
 - recreational vehicles that have been serviced, repaired or modified but have not been the subject of predelivery checks
 - inspection and adjustment hand and power tools and safety and other equipment
 - materials and items required for the tasks
 - job instructions and workplace procedures.

Assessors of this unit must satisfy the NVR/AQTF mandatory competency requirements for assessors.
