MSMSS00017 Use high pressure water jetting equipment

Release 1

MSMSS00017 Use high pressure water jetting equipment

Modification History

Release 1. Supersedes and is equivalent to MSMSS00003 Use high pressure water jetting equipment.

Description

This skill set reflects the skill requirements to safely and effectively use high pressure water jetting equipment under supervision.

Pathways Information

These units provide credit towards relevant qualifications in the MSM Manufacturing Training Package.

Licensing/Regulatory Information

Nil

Skill Set Requirements

Unit Code	Unit Title
MSMPER200	Work in accordance with an issued permit
MSMWHS110	Follow emergency response procedures
MSMWHS200	Work safely
MSMWJ202	Use high pressure water jetting equipment

Target Group

This skill set is for members of a water jetting team who are not competent to operate independently and need to have basic competencies before working under supervision. This not only involves technical competence in high pressure water jetting but also requires safe operation at a worksite that is not familiar to the operator.

Suggested words for Statement of Attainment

These competencies from the MSM Manufacturing Training Package meet the minimum industry requirements for an assistant operator undertaking high pressure water jetting.
