Assessment Requirements for MSMSUP300

Identify and apply process improvements

Release: 2

Assessment Requirements for MSMSUP300 Identify and apply process improvements

Modification History

Release 2. Equivalent. Minor edits for improved clarity. Range of conditions removed. Duplication between Performance Evidence and Performance Criteria removed. Assessment conditions updated.

Release 1. Supersedes and is equivalent to MSAPMSUP300A Identify and implement opportunities to maximise production efficiencies.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- identified process efficiency issues, recommended improvements and contributed to the development, implementation and review of improvement strategies
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- duty of care
- organisation procedures
- information systems and data collation
- process inefficiencies
- measures of process efficiency
- problems and hazards that may arise in the work role and work environment, including:
 - their possible causes
 - potential consequences
 - appropriate risk controls
- relevant equipment and operational processes.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - workplace documentation, forms and production reports

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
