Assessment Requirements for MSS015036 Develop response to sustainability related regulation

Release: 1

Assessment Requirements for MSS015036 Develop response to sustainability related regulation

Modification History

Release 1. Unit code changed. Application changed. Performance criteria changed. Range of conditions removed. Assessment requirements changed. Supersedes and is equivalent to MSS015014 Develop response to sustainability related regulation.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- identified regulatory requirements for at least 1 organisation or department and planned, negotiated, implemented and reviewed responses.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- sustainability regulations, legislation, standards relevant to organisation
- stakeholders and methodology required to determine organisation's current state and fit compared to regulations and legislation
- organisation's corporate social responsibility values, strategies and procedures
- brainstorming techniques
- cost-benefit analyses techniques
- methods of dealing with regulatory requirements and the benefits arising from each
- process monitoring and critical measures.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions, contingencies, facilities, equipment and resources.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
