Assessment Requirements for MSS015052 Develop regulated sustainability reports

Release: 1

Assessment Requirements for MSS015052 Develop regulated sustainability reports

Modification History

Release 1. Unit code changed. Application changed. Elements changed. Performance Criteria changed. Foundation Skills populated. Assessment Requirements changed. Workplace outcome changed. Supersedes and is not equivalent to MSS015037 Develop regulated sustainability reports.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- develop at least one report for an organisation to meet sustainability-related regulatory requirements.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- sustainability-related regulatory and reporting requirements relevant to the industry
- sustainability metrics, measurement and calculation techniques
- internal and external data sources
- data validation
- use of charts, tables and/or other graphics to present data.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - access to relevant sources of data
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
