Assessment Requirements for MSS402004 Sustain process improvements

Release: 1

Assessment Requirements for MSS402004 Sustain process improvements

Modification History

Release 1. Unit code changed. Application changed. Elements changed. Performance Criteria changed. Foundation Skills populated. Range of Conditions removed. Assessment Requirements changed. Supersedes and is equivalent to MSS402002 Sustain process improvements.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- identify impact of at least 3 previous improvements
- identify at least one improvement where objectives have not been met, apply corrective action, monitor its effectiveness and identify at least one change to sustain the improvement.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- identifying and reducing muda (waste) relevant to own work
- simple measures of improvement relevant to own work including time, quantity and value
- mistake-proofing techniques which focus on:
 - processes
 - people.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions, including:
 - at least three improvements, with defined improvement objectives, made using competitive systems and practices.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
