Assessment Requirements for MSS403004 Contribute to Agile work practices

Release: 1

Assessment Requirements for MSS403004 Contribute to Agile work practices

Modification History

Release 1. New unit

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- contribute ideas and produce work in at least 2 iterations of planning, development and review of a solution, product, feature or service.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- Agile values and principles as they apply to own work
- Agile practices and concepts including:
 - planning and release of work in increments and iterations
 - principles and practices of Scrum
 - incremental planning and development processes
 - customer feedback loops
 - metrics and criteria for work iterations
- communication techniques that support:
 - respect for others
 - safe place to make suggestions, review and learn from doing
 - asking for and offering assistance
 - giving and taking constructive feedback.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
