Assessment Requirements for MSS403056

Map an internal value stream

Release: 1

Assessment Requirements for MSS403056 Map an internal value stream

Modification History

Release 1. Unit code changed. Unit title changed. Application changed. Elements changed. Performance Criteria changed. Foundation Skills populated. Assessment Requirements changed. Workplace outcome has changed. Supersedes and is not equivalent to MSS403052 Map an office value stream.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- facilitate mapping of at least one internal value stream, with 2 or more other people, which identifies at least 2 improvements
- plan the implementation of at least 2 improvements.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- value stream mapping techniques and symbols
- facilitation of brainstorming events and team communication
- methods of identifying customer value added and/or customer perceived value
- types of muda that can be identified through value stream mapping
- methods of gathering data against performance variables
- value stream analysis techniques
- methods of prioritising improvements
- identifying implementation needs
- organisation's approval processes.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions, including:
 - • functioning competitive systems and practices environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
