Assessment Requirements for MSS404001

Lead Agile team processes

Release: 1

Assessment Requirements for MSS404001 Lead Agile team processes

Modification History

Release 1. New unit

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- liaise with at least one Agile project manager role to plan for at least one Agile subproject
- lead a team of 2 or more other people to deliver at least 3 iterations within an Agile subproject.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- Agile values and principles as they apply to planning for and leading subprojects and iterations
- application of scrum, sprint, backlog, visual management devices and pull within Agile teams
- calculation of team metrics for Agile projects
- principles of continuous improvement
- techniques to support team to make decisions and learn from iterations
- techniques to assist team to communicate with openness, respect and confidence in uncertain and changing context
- possible skill and/or other development needs to support team performance in relation to Agile and how to address them.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
