Assessment Requirements for MSS404089

Assist in implementing a proactive maintenance strategy

Release: 1

Assessment Requirements for MSS404089 Assist in implementing a proactive maintenance strategy

Modification History

Release 1. Unit code changed. Application changed. Performance Criteria changed. Foundation Skills populated. Assessment Requirements changed. Supersedes and is equivalent to MSS404086 Assist in implementing a proactive maintenance strategy.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- assist in determining and implementing a proactive maintenance strategy in at least one organisation.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- requirements of the proactive maintenance strategy being implemented
- operating principles and procedures for equipment and plant subject to proactive maintenance strategy
- purpose and processes for data collection in proactive maintenance strategies
- procedures relevant to own job and organisation implementation of proactive maintenance
- methods of making and recommending improvements
- methods of assessing operator and maintenance skill gaps and addressing them.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - proactive maintenance system and procedures
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
