Assessment Requirements for MSS405034 Develop a Just in Time system

Release: 1

Assessment Requirements for MSS405034 Develop a Just in Time system

Modification History

Release 1. Unit code changed. Application changed. Elements changed. Performance Criteria changed. Range of Conditions removed. Foundation Skills populated. Assessment Requirements changed. Workplace outcome changed. Supersedes and is not equivalent to MSS405021 Develop a Just in Time system.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- develop at least one complete JIT system and supervise its implementation.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- needs of internal and external value chain members
- principles of JIT
- methods to achieve JIT
- reasons for delays, storages and/or inventories in the value stream and methods of reducing or eliminating them
- methods of identifying and filling skill gaps
- key business objectives associated with implementing JIT
- principles of the operational processes relevant to the JIT implementation
- key measures and data relevant to the process and their application to JIT.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions, including:
 - functioning competitive systems and practices environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
