Assessment Requirements for MSS405044 Facilitate Agile projects

Release: 1

Assessment Requirements for MSS405044 Facilitate Agile projects

Modification History

Release 1. New unit.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- plan and facilitate the implementation of at least one Agile project including delivery of at least 2 increments.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- Agile values and principles as they apply to project planning and implementation
- application of scrum, sprint, backlog, visual management devices and pull within planning and implementation of Agile projects
- selection and calculation of metrics for Agile projects
- principles of continuous improvement
- techniques to facilitate communication and agreement across levels and areas of the organisation
- skill and/or other development typically needed to support Agile project planning and implementation and how to address them.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
