Assessment Requirements for MSS408010 Analyse data for relevance to organisational learning

Release: 1

Assessment Requirements for MSS408010 Analyse data for relevance to organisational learning

Modification History

Release 1. Unit code changed. Application changed. Performance criteria changed. Range of conditions removed. Assessment requirements changed. Supersedes and is equivalent to MSS408008 Analyse data for relevance to organisational learning.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- analysed data from at least 1 data system and applied it to organisational learning.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- sources of data within the organisation and the value stream
- methods of analysing data for learnings
- methods of capturing data and the learnings from it
- competitive systems and practices tools relevant to the process, section and value stream
- kaizen and kaizen blitz processes
- communication modes.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions, contingencies, facilities, equipment and resources.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
