Assessment Requirements for MSTAT2009 Trim headwear

Release: 1

Assessment Requirements for MSTAT2009 Trim headwear

Modification History

Release 1. Unit code and Application changed. Elements and Performance Criteria simplified with Element 1 and 2 combined. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is equivalent to MSTCL2016 Trim headwear.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- prepare headwear materials using at least one of the following techniques:
 - cutting
 - shaping
 - stiffening
- attach and position trims to meet specifications and workplace quality standards on at least two types of headwear.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- different types of headwear trims:
 - main characteristics
 - fabric types
 - different applications
 - attachment methods – sewing, stapling, gluing
- types of equipment used to trim headwear and associated safety considerations
- ways of minimising waste
- quality checking practices and procedures
- potentially hazardous items that may need to be removed from headwear
- workplace practices for recording and reporting of information.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - work specifications
 - headwear for trimming
 - equipment for preparing headwear materials and attaching trims
 - workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
