Assessment Requirements for MSTAT4008

Create standard-size garment patterns from existing blocks

Release: 1

Assessment Requirements for MSTAT4008 Create standard-size garment patterns from existing blocks

Modification History

Release 1. Unit Code, Title and Application changed. Elements and Performance Criteria simplified with Element 1 and 2 combined. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is equivalent to MSTFD4010 Create pattern to meet design specifications applying advanced pattern-making principles.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- develop at least two standard size garment patterns from existing blocks, with the two patterns to collectively demonstrate use of:
 - advanced dart manipulation
 - contouring
 - fitting and seamlines
 - fastenings and function
 - fullness
 - openings
 - pivoting
 - square blocking.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- how to interpret garment design specifications and the types of information included in specifications
- Australian garment sizing systems
- garment patternmaking methods and formulas
- garment styles and features
- basic aspects of body science that impact garment patternmaking.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
- design specifications
- existing blocks
- patternmaking tools and equipment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
