# **Assessment Requirements for MSTAT4010**

## **Create garment patterns for individual sizes from blocks**

**Release: 1**

## **Assessment Requirements for MSTAT4010 Create garment patterns for individual sizes from blocks**

### **Modification History**

Release 1. Unit Code, Title and Application changed. One prerequisite unit removed (MSTAT4008) Content already covered in remaining prerequisite unit removed. Elements and Performance Criteria simplified with Element 1 and 2 combined. Some Performance Criteria changed and/or re-ordered. Foundation Skills field populated. Range of Conditions removed with relevant information moved to other parts of unit. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is not equivalent to MSTFD4015 Create pattern from block to meet customer specifications.

### **Performance Evidence**

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- interact appropriately with at least one client during the process of taking body measurements
- develop at least two garment patterns using existing blocks for two of the following:
  - dress
  - pants
  - shirt
  - simple jacket
  - skirt.
  -

### **Knowledge Evidence**

There must be evidence the candidate has knowledge of:

- types of body measurements required to establish requirement pattern modifications
- types of body characteristics to be considered
- fabric characteristics that may impact block selection and modification process
- garment patternmaking methods and formulas
- types of alterations for different garments and garment components
- common types of pattern alterations made to fit individuals, including:
  - sway back
  - slope shoulder
  - large bust
  - stomach characteristics
  - bottom characteristics

- crotch length
- prominent bones
- interpersonal communication considerations, both verbal and non-verbal, when taking body measurements.
- 

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - design specifications
  - existing blocks
  - patternmaking tools and equipment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
