Assessment Requirements for MSTAT4019

Produce knitted textile samples

Release: 1

Assessment Requirements for MSTAT4019 Produce knitted textile samples

Modification History

Release 1. Unit Code and Application changed. Element 1 removed. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Performance or Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is equivalent to MSTTD4001 Produce knitted textile samples.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- machine produce at least two different knitted samples according to design specifications, with the two samples to collectively include:
 - use of three of the following production methods:
 - flat knitting
 - circular knitting
 - sock knitting
 - weft knits
 - warp knits
 - tricot knit
 - jacquard
 - three of the following production requirements:
 - hems
 - patterning
 - partial knitting
 - shaping
 - stitch gauge
 - stitches
 - striping
 - tension
 - tuck and slip
 - weaving
- use of three knit modification techniques.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- safe work practices and procedures and use of personal protective equipment
- types and styles of knitted fabrics
- types of production requirements for knitted products
- type of information in pattern information and design specifications
- knit modification techniques, including:
 - transfer stitches using different transfer tools
 - drop stitches
 - extended stitches
 - joining
 - seam as you go
 - edging
- knitting machine operation and simple maintenance
- natural, synthetic and blend yarns and their characteristics
- fault-finding procedures, typical fault conditions and how to rectify:
 - holes
 - foreign matter
 - creasing
 - lines
 - runs
 - machine or equipment faults
- recording and reporting practices for knitting operations.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - design specifications
 - knitting materials, tools and equipment
 - workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
