**Assessment Requirements for MSTAT5011
Develop standard-size patterns from
existing blocks for garments with advanced
styling**

Assessment Requirements for MSTAT5011 Develop standard-size patterns from existing blocks for garments with advanced styling

Modification History

Release 1. Unit Code, Title and Application changed. Two prerequisite units removed. Content already covered in remaining prerequisite unit removed. Elements and Performance Criteria simplified with Element 1 and 2 combined. Some Performance Criteria changed and/or re-ordered. Foundation Skills field populated. Range of Conditions removed with relevant information moved to other parts of unit. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is not equivalent to MSTFD5015 Develop patterns for complex fashion garments.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- develop a standard size pattern for two different garments, which collectively involve at least three of the following:
 - bridal wear
 - corsetry
 - evening / occasional wear
 - structured tailoring
 - specialised market segment
 - three-dimensional drape
 - virtual 3D patternmaking
 - zero-waste patternmaking.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- how to interpret garment design specifications and the types of information included in specifications
- garment cutting and construction techniques
- garment patternmaking methods and formulae
- features in different types of garments with advanced styling and how standard blocks may be altered to achieve those features
- relationship of garment and style features to target market.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - design specifications
 - existing blocks
 - patternmaking tools and equipment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
