Assessment Requirements for MSTAT5015

Develop digital costing markers

Release: 1

Assessment Requirements for MSTAT5015 Develop digital costing markers

Modification History

Release 1. Unit Code and Application changed. Prerequisite unit removed. Elements and Performance Criteria simplified with Element 1 removed. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is equivalent to MSTFD5022 Develop digital costing markers.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- produce costing markers for at least two complete sets of graded garment patterns.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- use of technical drawings and specifications in patternmaking, including fabric and other specifications needed to create costing markers
- workplace sizing systems for different body types
- at least one digital software program used for creating costing markers:
 - operating procedures
 - program features, including use of libraries
 - editing tools and procedures
 - filing and storage procedures
- factors to consider when assessing commercial viability of production
- garment design and production process.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - specification sheets
 - computer hardware
 - marker-making software.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
