Assessment Requirements for MSTCL2011

Draw and interpret a basic sketch

Release: 1

Assessment Requirements for MSTCL2011 Draw and interpret a basic sketch

Modification History

Release 1. Supersedes and is equivalent to LMTCL2011B Draw and interpret a basic sketch

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- applying relevant standard
- preparing workstation, tools and equipment
- identifying basic styles, pattern pieces and components of identified garment
- using at least two (2) different appropriate templates to draw a sketch and draw accurate lines as required to complete sketch
- completing a freehand sketch to correctly represent required pattern pieces, garment or style
- identifying and labelling relevant parts of sketch
- showing accurate details of at least three (3) pattern pieces and garment construction
- applying quality criteria in completion of sketch
- conveying all necessary instructions/information by the appropriate use of notes on the sketch
- completing documentation relating to sketch according to workplace procedures.
-

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- characteristics of fabrics used for garment construction
- basic pattern styles:
 - straight and A-line skirt
 - shift dress
 - blouse
 - pants
 - trousers
- features of design:
 - pattern pieces

- construction requirements
- garment style
- basic pattern shapes
- drawing tools and equipment:
 - A3 layout pad
 - pencils with HB leads
 - pencil sharpener
 - kneadable eraser
 - templates
- sequence of operations
- quality criteria:
 - proportion
 - perspective
 - symmetry and balance
 - fabric performance
 - detailing
 - neatness
- workplace procedures
- recording and reporting practices.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in drawing and interpreting a basic sketch, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
