Assessment Requirements for MSTCL3007 Embellish garment by hand or machine

Release: 3

Assessment Requirements for MSTCL3007 Embellish garment by hand or machine

Modification History

Release 3. Supersedes and is equivalent to MSTCL3007 Embellish garment by hand or machine (Release 2).

Pre-requisite unit, MSTGN2011 Identify fibres, fabrics and textiles used in the TCF industry, is superseded by MSTGN2013 Identify fibres, fabrics and textiles used in the TCF industry.

Release 2. Supersedes and is equivalent to MSTCL3007 Embellish garment by hand or machine (Release 1).

Data entry errors re listed pre-requisites corrected - MSTCL2005 removed as incorrect unit and MSTCL2001 replaced with MSTFD2006.

Release 1. Supersedes and is equivalent to LMTCL3007B Embellish garment by hand or machine.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance, criteria and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- applying relevant standards
- preparing workstation and planning work sequence
- performing embellishment by hand or machine using at least three (3) methods
- carrying out minor maintenance on embellishment equipment according to suppliers requirements or workplace practices
- identifying, reporting and recording any faults, and taking necessary action to repair or discard
- directing completed garments or articles to next operation
- completing work documentation as required.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- principles of design
- characteristics of fibres, threads, fabrics and other material
- criteria for selection of threads:
 - colour
 - thickness

- shine
- texture
- stability
- strength
- forms of manual and machine embellishment
- equipment and materials:
 - sewing machine and attachments, such as feet
 - garment
 - scissors
 - tape measures
 - hand sewing needles, such as beading and crewel
 - embroidery hoop
- garment considerations, such as:
 - type of fabric
 - colour of fabric
 - positioning of design
 - purpose of garment
 - suitability of size, design and colour
- embellishment procedures
- quality standards and practices
- sequence of operations
- workplace procedures
- recording and reporting practices.

Assessment Conditions

Assessors must:

- satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator.
- have vocational competency in embellishing garments by hand or machine, at least to the level being assessed, with relevant industry knowledge and experience

Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
