Assessment Requirements for MSTFD5025 Analyse influences on contemporary fashion designs

Release: 1

Assessment Requirements for MSTFD5025 Analyse influences on contemporary fashion designs

Modification History

Release 1. Supersedes and is equivalent to MSTFD5007 Analyse influences on contemporary fashion designs.

Unit code changed. Prerequisite removed. Range of conditions removed. Foundation skills information added. Assessment requirements amended. Equivalent outcome.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- analysed influences on contemporary fashion design using at least three different sources of information
- identified at least one future possible trend and presented evidence with illustrations to support the prediction, using industry-relevant communication and presentation skills.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- regulatory and industry standards for textiles, clothing and footwear products
- theories of fashion adoption and dissemination
- role of media in adopting and disseminating fashion designs
- fashion features of selected products
- reference sources to identify fashion trends
- influences on contemporary fashion
- contemporary and historic fashion trends
- communication tools to convey fashion industry trends
- presentation methods to convey ideas about influences on fashion.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including computing equipment and software packages.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
