MSTFD5025 Analyse influences on contemporary fashion designs

Release: 1

MSTFD5025 Analyse influences on contemporary fashion designs

Modification History

Release 1. Supersedes and is equivalent to MSTFD5007 Analyse influences on contemporary fashion designs.

Unit code changed. Prerequisite removed. Range of conditions removed. Foundation skills information added. Assessment requirements amended. Equivalent outcome.

Application

This unit of competency describes the skills and knowledge required to research and analyse significant influences that determine current individual preferences and future fashion trends. It involves analysing fashion theories on adoption and dissemination of new trends, as well as investigating fashion trends.

The unit applies to those in the textiles, clothing and footwear industry developing designs that meet specific design briefs and current market demands. Work may be conducted in small to large scale workplaces and may involve individual and team activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

N/A

Unit Sector

Fashion design and technology

Elements and Performance Criteria

Elements	Performance Criteria	
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.	
1. Identify influences on contemporary fashion	1.1	Investigate significant influences on contemporary fashion
	1.2	Identify what role these influences play in contemporary fashion preferences
2. Use fashion reference sources	2.1	Identify ways that current theories of fashion are adopted and disseminated
	2.2	Identify the role of contemporary media and its function in the

Elements	Performance Criteria

		process of the fashion being adopted and disseminated
	2.3	Research a current fashion trend and analyse the role of a specified media type on its adoption and dissemination
3. Investigate fashion forecasting	3.1	Identify purposes of fashion forecasting
	3.2	Identify and compare different sources of information used when predicting future fashion directions
	3.3	Predict future trends and provide illustrations with evidence to support predictions
	3.4	Present research and ideas for future fashion trends using communication tools and presentation skills appropriate to fashion industry

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria of this unit of competency.

- Self-management skills to seek the ideas of others and integrate own ideas and visions into analysis
- Technology skills to identify and research fashion market trends

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

Unit Mapping Information

Release 1. Supersedes and is equivalent to MSTFD5007 Analyse influences on contemporary fashion designs.

Assessment Requirements for MSTFD5025 Analyse influences on contemporary fashion designs

Modification History

Release 1. Supersedes and is equivalent to MSTFD5007 Analyse influences on contemporary fashion designs.

Unit code changed. Prerequisite removed. Range of conditions removed. Foundation skills information added. Assessment requirements amended. Equivalent outcome.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- analysed influences on contemporary fashion design using at least three different sources of information
- identified at least one future possible trend and presented evidence with illustrations to support the prediction, using industry-relevant communication and presentation skills.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- regulatory and industry standards for textiles, clothing and footwear products
- theories of fashion adoption and dissemination
- role of media in adopting and disseminating fashion designs
- fashion features of selected products
- reference sources to identify fashion trends
- influences on contemporary fashion
- contemporary and historic fashion trends
- communication tools to convey fashion industry trends
- presentation methods to convey ideas about influences on fashion.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including computing equipment and software packages.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
