Assessment Requirements for MSTFP4002 Make patterns for custom-made footwear

Release: 1

Assessment Requirements for MSTFP4002 Make patterns for custom-made footwear

Modification History

Release 1. Supersedes and is equivalent to LMTFP4002A Make patterns for custom-made footwear

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices and other reference material
- applying relevant standards
- interpreting design brief and confirming specifications
- identifying and defining design lines and features
- choosing patterns to suit specifications and measurements or developing new patterns to suit specifications on at least three (3) occasions
- modifying, checking and testing at least three (3) patterns according to selected materials, shoe style and specific client requirements
- making prototype or toile
- making and evaluating a mock-up of proposed construction and materials in line with design and fit, to confirm pattern
- communicating effectively with design team and customers
- applying work health and safety (WHS) policies in work operations
- applying workplace procedures
- maintaining accurate records

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- principles and concepts of patternmaking
- general principles of custom-made footwear design
- cost efficiency in relation to patternmaking
- range of typical leathers, fabrics, including weight and other characteristics
- toile production
- standard and working patterns
- procedures for marker making
- practices for cutting and construction

- WHS and environmental aspects of relevant enterprise activities
- workplace procedures and reporting processes
- WHS practices
- quality practices
- workplace procedures
- practices for recording and reporting.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in making patterns for custom-made footwear, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
