Assessment Requirements for MSTGN2021 Select, transfer and remove materials and products

Release: 1

Assessment Requirements for MSTGN2021 Select, transfer and remove materials and products

Modification History

Release 1. Supersedes **and is equivalent to** MSTGN2007 Select, transfer and remove materials and products.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- loaded/unloaded and transferred at least 2 different types of materials or products, including:
 - interpreting work orders and industry documentation
 - using suitable equipment, safe work practices and correct manual handling techniques
 - documenting non-conforming materials and products.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- safe manual handling techniques
- loading equipment, including pallet truck and hand trolley
- workplace procedures for:
 - cleaning of machines and equipment.
 - dispatch and receipt
 - handling product or materials
 - loading and unloading
 - recording and reporting.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - a textiles, clothing and footwear (TCF) production environment set up with storage area and related standard operating procedures (SOPs)
 - moving equipment
 - products/materials to be moved.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
