Assessment Requirements for MSTGN3015 Supervise operations in a TCF enterprise

Release: 1

Assessment Requirements for MSTGN3015 Supervise operations in a TCF enterprise

Modification History

Release 1. Supersedes **and is equivalent to** MSTGN3004 Supervise operations in a TCF enterprise.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- Supervised the operations of 2 different processes within a TCF enterprise, including:
 - planning, scheduling and prioritising resources (machines, staff, materials and operation processes)
 - clarifying tasks, roles and responsibilities for staff
 - addressing technical problems raised by operators regarding machinery, product quality and operational safety
 - completing enterprise documentation for all stages of production.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- key requirements of Australian Standards, industry regulations and codes of practice, relevant to the industry sector (such as *Australian/New Zealand Standard™ AS/NZS 4146:2000 Laundry practice*, applicable to a laundry workplace)
- production and work flow system in the workplace
- factors and constraints that negatively impact on effective work flow and how they can be controlled
- cost-effective work methods to achieve production objectives and timelines
- methods for monitoring and controlling the use of resources
- quality standards and practices relevant to product
- effective communication strategies
- workplace recording and reporting practices.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:

- a TCF production environment set up with relevant standard operating procedures (SOPs), safety information and equipment
- access to operators, maintenance staff and management.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
