Assessment Requirements for MSTGN4025

Use digital design tools

Release: 1

Assessment Requirements for MSTGN4025 Use digital design tools

Modification History

Release 1. Unit Code, Title and Application changed. Unit broadened to encompass products other than fashion products. Elements and Performance Criteria simplified with Element 1 removed. Foundation Skills field populated. Range of Conditions removed. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is not equivalent to MSTFD4020 Use electronic fashion design tools.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- use digital design tools to create designs and production specifications for at least two different textile products.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- at least one digital software program used for product design in the textiles, clothing and footwear industries, including:
 - operating procedures
 - program features
 - editing tools and procedures
 - filing and storage procedures
- computer hardware requirements
- role of digital design tools in textile design and production.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - design information
 - computer hardware
 - design software.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
