Assessment Requirements for MSTGN4026

Source textile materials and resources

Release: 1

Assessment Requirements for MSTGN4026 Source textile materials and resources

Modification History

Release 1. Unit Code and Application changed. Elements and Performance Criteria simplified. Monitoring, receiving and invoicing aspects removed as these are different skills found in other units. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is not equivalent to MSTTD4006 Source textile materials and resources.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- establish supply criteria based on business objectives, research different suppliers and place orders for at least two of the following types of textile materials and resources:
 - dyes
 - fabrics
 - finishing treatments.
 - man-made materials
 - raw materials
 - recycled materials
 - screens
 - trims and accessories
 - yarns.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- key aspects of woven, knitted and non-woven fabrics and fibres, including:
 - how to identify different types
 - properties and how these impact appearance or process
 - performance of different materials & related care and handling considerations
 - how to spot flaws
 - common end uses of woven, knitted and non-woven textiles
 - types of textile operations and the materials and resources required for production
 - local, national and international supply sources of textile materials and resources, including:
 - wholesalers
-

-
- importers
 - mills
 - jobbers
 - converters
 - role of shipping and customs agents
 - information resources on materials, resources and suppliers
 - research techniques
 - supply criteria, their interrelationships, how to compare them for relevance to different business objectives, including:
 - availability
 - circularity / sustainability quality
 - product standards
 - reliability and reputation
 - financial:
 - price
 - hidden costs
 - payment options
 - minimum order requirements
 - shipping and freight options
 - timelines
 - workplace practices and procedures for supplier communication.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - business objectives for development of supply criteria
 - information technology for research.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
