Assessment Requirements for MSTGN5015 Work with local and international TCF supply chains

Release: 1

Assessment Requirements for MSTGN5015 Work with local and international TCF supply chains

Modification History

Release 1. Unit code, Title and Application changed. Unit broadened to include the requirement for working with both local and international supply chains. Supersedes and is not equivalent to MSTGN5011 Work with international TCF supply chains.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- investigate and work with supply chains to support the production of at least three individual products or one small range of products
 - investigate, interpret, record and use information about the supply chain characteristics and operations of:
 - at least two international suppliers or customers
 - at least two local suppliers or customers
 - assess information and select one local or international textiles, clothing and footwear (TCF) supply chain partner based on production requirements
 - follow processes to establish and monitor relationship with selected supply chain partner.

Knowledge Evidence

- product market and trends relevant to work role
- types of information for consideration in supply chain arrangements, including:
 - regulations and accreditations for TCF goods and services
 - ethical sourcing requirements
 - pricing structures
 - import and export factors
 - production times
 - quality assurance factors
 - production and marketing arrangements
 - transportation and shipping
- production control and efficiency processes used in work role
- product and process specifications used in work role
- practices and procedures for local and international supply arrangements relevant to work role
- communication and negotiation techniques to support effective international and domestic supply arrangements

- workplace recording and reporting requirements.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - information technology for research and communication.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
