# **Assessment Requirements for MSTHL2005**

## **Trim hides, skins or leather**

**Release: 1**

# Assessment Requirements for MSTHL2005 Trim hides, skins or leather

## Modification History

Release 1. Supersedes and is equivalent to LMTHL2011A Trim hides, skins or leather

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures and safe work practices, industry codes and standards
- using personal protective equipment (PPE), where required
- applying relevant standards
- selecting, sharpening and preparing knives applicable to the required task
- trimming materials in accordance with procedures on at least two (2) occasions
- monitoring and disposing of waste in accordance with environmental procedures
- cleaning, maintaining and storing equipment appropriately.

## Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of PPE
- relevant Australian Standards
- industry and product processes and equipment
- trimming requirements
- procedures for knife handling, sharpening, and storing
- processes for waste monitoring
- quality standards and manual handling procedures
- work health and safety (WHS) and environmental aspects of relevant processes, particularly working with sharp objects
- relevant federal and state or territory legislative or regulatory requirements
- recording and reporting procedures.

## Assessment Conditions

- Assessors must:
  - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
  - have vocational competency in trimming hides, skins or leather, at least to the level being assessed, with relevant industry knowledge and experience.

- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
