Assessment Requirements for MSTHL2006

Use drum or vessel to prepare or tan hides or skins

Release: 1

Assessment Requirements for MSTHL2006 Use drum or vessel to prepare or tan hides or skins

Modification History

Release 1. Supersedes and is equivalent to LMTHL2006A Use drum or vessel to prepare or tan hides or skins

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices, industry codes and standards
- applying relevant standards
- determining loads and batches and load drum or vessel on at least two occasions
- carrying out between load servicing, filling drum or vessel and adding formulations and additives
- following schedules for the process
- checking and monitoring correct function and process parameters ensuring product meets specifications
- recognising and isolating deviations from normal in accordance with procedures
- loading and unloading hides or skins using relevant manual handling techniques
- directing hides or skins to correct area for next process
- controlling handling of process liquid or effluent in accordance with environmental and workplace procedures.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- industry and product processes and equipment
- calculating drum or vessel loads and batches:
 - weight
 - volume
 - counting
- procedures and requirements for preparation and loading
- characteristics ,hazards and applications of dyes, formulations and additives used in tanning process
- types and applications of formulations and additives
- monitoring processes and operator instructions

- quality standards and manual handling procedures
- work health and safety (WHS) and environmental aspects of relevant processes, including effluent handling and disposal
- relevant federal and state or territory legislative or regulatory requirements
- recording and reporting procedures.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in using drum or vessel to prepare or tan hides or skins, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
