Assessment Requirements for MSTML2003

Produce and attach millinery trims

Release: 1

Assessment Requirements for MSTML2003 Produce and attach millinery trims

Modification History

Release 1. Supersedes and is equivalent to LMTML2003A Produce and attach millinery trims

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria on at least two occasions and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- using millinery trims, tools and equipment
- preparing trim components
- positioning and attaching trims to produce the required outcome on at least two (2) millinery items
- maintaining accurate records
- recognising non-conforming outcomes
- checking trimmed or finished article meets specifications, including safety of potentially dangerous items
- applying workplace procedures.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- millinery processes and equipment
- the composition of materials and components used in the production of millinery items:
 - natural
 - synthetic
 - man-made
 - animal
 - vegetable
 - mineral
 - chemical
- materials and components suitable for the design and production of millinery items:
 - traditional and non-traditional materials used in millinery construction
 - contemporary materials
 - foundation and support materials
 - adhesives

- wire
- fishing line
- plastic tubing
- sizing
- canvas
- sinamay
- felt pieces
- straw pieces
- braids
- ribbons
- lace
- buttons
- beads
- flowers
- feathers
- net
- fashion fabrics
- physical characteristics:
 - soft
 - pliable
 - hard
 - rigid
- trims, including fabric types, variety, their application and attachment methods:
 - ribbon
 - braid
 - fabric
 - flowers
 - badges
 - buttons
 - studs
 - eyelets
 - fastenings
 - elastic
 - cords
 - feathers
- inspection and checking procedures
- quality standards and practices
- workplace procedures.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in producing and attaching millinery trims, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
