## MSTTF2004 Add reinforcements and attachments

### Modification History

Release 1. Supersedes and is equivalent to LMTTF2004A Add reinforcements and attachments

### Application

This unit of competency covers the skills and knowledge required to add reinforcing materials and attachments to canvas and sail products.

The unit of competency applies to the addition of accessories, attachments and reinforcement.

Work may be conducted in small to large scale enterprises in a variety of environments, such as operational indoor and outdoor workplaces or hazardous or exposed conditions, and may involve individual and team activities. Work is performed within defined procedures under direct supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

### Pre-requisite Unit

Nil

### Competency Field

Textile fabrication

### Unit Sector

Not applicable

### Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

|   |                                   |     |                                                                             |
|---|-----------------------------------|-----|-----------------------------------------------------------------------------|
| 1 | <b>Determine job requirements</b> | 1.1 | Follow standard operating procedures (SOPs)                                 |

|   |                                              | 5.6 | Inform supervisor of any abnormal conditions needing maintenance or repair                                     |

## Foundation Skills

This section describes those required skills (language, literacy and numeracy) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

This field allows for different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

**Workplace procedures include one or more of the following:**

- requirements prescribed by legislation, awards, agreements and conditions of employment
- SOPs
- work instructions
- oral, written and visual communication
- quality practices, including responsibility for maintenance of own work quality and contribution to quality improvement of team or section output
- housekeeping
- tasks related to environmental protection, waste disposal, pollution control and recycling
- WHS practices

**Australian Standards include:**

- the relevant industry or Australian Standards that are current at the time this unit is being undertaken

**Equipment include one or more of the following:**

- drills
- electric staple guns
- pop-riveting guns
- lifting and hoisting equipment
- measuring equipment
- spanners
- pliers
- screwdrivers
- knives
- scissors
- hacksaws
- hammers
- files

**WHS practices**

WHS practices include hazard identification and control, risk assessment and implementation of risk reduction measures specific to the tasks described by this unit, and include one or more of the following:

- manual handling techniques
- SOPs
- PPE
- safe materials handling
- taking of rest breaks
- ergonomic arrangement of workplaces
- following marked walkways
- safe storage of equipment
- housekeeping
- reporting accidents and incidents
- environmental practices

## Unit Mapping Information

Release 1. Supersedes and is equivalent to LMTTF2004A Add reinforcements and attachments
