Assessment Requirements for MSTTF2012 Stitch by hand

Release: 1

Assessment Requirements for MSTTF2012 Stitch by hand

Modification History

Release 1. Supersedes and is equivalent to LMTTF2012A Stitch by hand

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- applying relevant standards
- complying with all relevant safety requirements, including safe use of needles and associated tools
- interpreting work orders
- interpreting standard specifications of needles, threads and materials used in the hand stitching process
- preparing and setting up material for hand stitching
- performing standard hand stitching processes on at least two (2) occasions
- inspecting completed work, checking quality and determining any rectification necessary
- performing normal operator maintenance of work area to enable work to be conducted safely and efficiently
- labelling or tagging work, and documenting and communicating work-related information, including reporting of faults and other problems, according to workplace procedures.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- hazards associated with hand stitching process
- standard hand stitching principles and techniques, including various types of stitches used
- the normal range of needles, threads and associated tools used in hand stitching and their appropriateness for particular applications
- materials specifications and material sewing characteristics
- quality standards applicable to hand stitching
- work health and safety (WHS) and environmental requirements of relevant industry and workplace procedures
- general housekeeping policies and procedures
- quality practices
- workplace procedures
- recording and reporting practices.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in stitching by hand, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
