Assessment Requirements for MSTTF2013 Waterproof canvas products

Release: 1

Assessment Requirements for MSTTF2013 Waterproof canvas products

Modification History

Release 1. Supersedes and is equivalent to LMTTF2013A Waterproof canvas products

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices and other reference material
- applying relevant standards
- complying with all relevant safety requirements, including safe use of waterproofing agents, hand and power tools, and electrical equipment
- interpreting work orders and following work instructions
- interpreting equipment and materials instructions for the waterproofing process
- preparing product to be waterproofed and setting up waterproofing equipment
- performing waterproofing process according to workplace procedures to meet quality standards on at least two (2) occasions
- testing product to determine if waterproofing was effective, and obtaining approval for further treatment, if necessary
- performing normal operator maintenance of work area to enable work to be conducted safely and efficiently
- documenting and communicating work-related information, including reporting of faults and other problems
- applying workplace procedures.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- specific work health and safety (WHS) requirements associated with the use of volatile or toxic products
- explosion and fire hazards associated with volatile solvents
- waterproofing principles and techniques
- types of canvas in common use
- waterproofing agents commonly used
- relevant quality standards for waterproofing processes
- environmental requirements of relevant industry and workplace procedures
- general housekeeping policies and procedures

- WHS practices, including hazard identification and control measures
- quality practices
- workplace procedures
- recording and reporting practices.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in waterproofing canvas products, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
