Assessment Requirements for MSTTX2004 Conduct packaging or folding for textile production

Release: 1

Assessment Requirements for MSTTX2004 Conduct packaging or folding for textile production

Modification History

Release 1. Supersedes and is equivalent to LMTTX2013B Conduct packaging or folding for textile production

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- applying relevant standards
- checking work against ticket information and workplace standards
- preparing workstation and work before commencing operations
- carrying out minor machine maintenance according to workplace procedures
- operating machine or conducting process to package or fold products on at least two (2) occasions
- assessing work to check it complies with quality standards and production specifications
- identifying, reporting and recording any faults.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- packaging and folding processes
- operating procedures for machines
- quality standards and practices
- workplace procedures
- recording and reporting practices.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in packaging or folding for textile production, at least to the level being assessed, with relevant industry knowledge and experience.

- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
