MTMP2082B Operate carton scales

Release: 1

MTMP2082B Operate carton scales

Modification History

Not Applicable

Unit Descriptor

Unit descriptor	This unit covers the skills and knowledge required to weigh carton meat, record carton details and check the meat cuts against the product description on the carton in accordance with workplace requirements.
------------------------	---

Application of the Unit

Application of the unit	This unit is applicable to boning room, food services and wholesale butchery operations.
--------------------------------	--

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Prerequisite units	Nil	

Employability Skills Information

Employability skills	This unit contains employability skills.
-----------------------------	--

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Check scales	1.1. All scales are checked regularly according to operational procedures and regulatory requirements to ensure hot weights are accurate. 1.2. Scales are checked to ensure they read zero after taring. 1.3. Appropriate personnel are notified if scales are not accurate.
2. Test weights	2.1. Clean and undamaged mass is combined to determine maximum operational weight for production. 2.2. Scale readings are recorded at a minimum of two increments to ensure scales are checked accurately. 2.3. Test weights are certified in accordance with regulatory and workplace requirements .
3. Record check measure	3.1. All results of check measures are accurately recorded according to workplace requirements. 3.2. Results are verified according to workplace requirements.
4. Weigh carton	4.1. Carton is weighed and weight read. 4.2. Net weight of carton is checked to ensure compliance with workplace requirements and customer specifications. 4.3. Weight of carton is recorded (where this forms part of work instruction).

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- weigh cartons accurately
- check carton contents against product description
- accurately complete scales records
- use correct scale check procedure
- identify specific scales problems and specify the action required to maintain

REQUIRED SKILLS AND KNOWLEDGE

weighing standards

- report equipment faults to supervisor
- work effectively as an individual and as part of a team
- apply relevant ***Occupational Health and Safety (OH&S) requirements***
- take action to improve own work performance as a result of self-evaluation, feedback from others, or in response to changed work practices or technology
- use ***communication*** skills appropriate to the task

Required knowledge

- consequences of incorrect operation of scales
- enterprise and regulatory requirements for operating and testing scales
- relevant OH&S requirements

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

The meat industry has specific and clear requirements for evidence. A minimum of three forms of evidence is required to demonstrate competency in the meat industry. This is specifically designed to provide evidence that covers the demonstration in the workplace of all aspects of competency over time.

These requirements are in addition to the requirements for valid, current, authentic and sufficient evidence.

Three forms of evidence means three different kinds of evidence - not three pieces of the same kind. In practice it will mean that most of the unit is covered twice. This increases the legitimacy of the evidence.

All assessment must be conducted against Australian meat industry standards and regulations.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Competency must be demonstrated at normal chain speed.

Context of, and specific resources for assessment

Assessment must occur in the workplace under normal production conditions.

Method of assessment

Recommended methods of assessment include:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessment practices should take into account any relevant language or cultural issues related to Aboriginality or Torres Strait Islander, gender, or language backgrounds other than English. Language and literacy demands of the assessment task should not be higher than those of the work role.

Guidance information for assessment

A current list of resources for this unit of competency is available from MINTRAC www.mintrac.com.au or

EVIDENCE GUIDE

telephone 1800 817 462.

Range Statement**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Regulatory requirements may include:

- Export Control Act
- relevant regulations
- requirements set out in AS 4696:2007 Australian Standard for Hygienic Production and Transportation of Meat and Meat Products for Human Consumption
- state and territory regulations regarding meat processing.

Workplace requirements may include:

- apply numeracy skills
- enterprise-specific requirements
- OH&S requirements
- Quality Assurance (QA) requirements
- Standard Operating Procedures (SOPs)
- the ability to perform the task to production requirements
- work instructions.

OH&S requirements may include:

- enterprise OH&S policies, procedures and programs
- OH&S legal requirements
- Personal Protective Equipment (PPE) which may include:
 - coats and aprons
 - ear plugs or muffs
 - eye and facial protection
 - head-wear
 - lifting assistance
 - mesh aprons

RANGE STATEMENT	
	• protective boot covers • protective hand and arm covering • protective head and hair covering • uniforms • waterproof clothing • work, safety or waterproof footwear requirements set out in standards and codes of practice.
<i>Communication skills</i> may include:	• listening and understanding • reading and recording workplace data • sharing information • speaking clearly and directly • working with diverse individuals and groups.
