MTMR309C Prepare, roll, sew and net meat

Release: 1

MTMR309C Prepare, roll, sew and net meat

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit covers the skills and knowledge required to roll, sew and net meat.
------------------------	---

Application of the Unit

Application of the unit	This unit is applicable to meat retailing, food services and smallgoods enterprises.
--------------------------------	--

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Prerequisite units	Nil	

Employability Skills Information

Employability skills	This unit contains employability skills.
-----------------------------	--

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare <i>meat for rolling, sewing and netting</i>	1.1. Meat is prepared for rolling, sewing and netting according to <i>workplace</i> , hygiene, Occupational Health and Safety (OH&S) and Quality Assurance (QA) requirements.
2. Roll meat	2.1. Meat is rolled according to product and customer specifications, workplace, hygiene and QA requirements.
3. Sew, net and <i>tie</i> meat	3.1. Meat is sewn, netted and tied according to workplace, OH&S, hygiene and QA requirements, and product and customer specifications.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- **explain** meat preparation for rolling
- operate netting machines
- roll, tie, sew and net meats to accepted workplace standard
- use different techniques to tie meat
- identify sub-standard products and rectify
- work individually and with team members
- apply relevant **regulatory requirements**
- seek advice from appropriate sources, as necessary, when working with new products
- use **communication** and mathematical skills appropriate to the task
- work with team members to develop new products

Required knowledge

Knowledge of:

- use of netting
- meat preparation for rolling
- relevant regulatory requirements

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

The meat industry has specific and clear requirements for evidence. A minimum of three forms of evidence is required to demonstrate competency in the meat industry. This is specifically designed to provide evidence that covers the demonstration in the workplace of all aspects of competency over time.

These requirements are in addition to the requirements for valid, current, authentic and sufficient evidence.

Three forms of evidence means three different kinds of evidence - not three pieces of the same kind. In practice it will mean that most of the unit is covered twice. This increases the legitimacy of the evidence.

All assessment must be conducted against Australian meat industry standards and regulations.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Context of, and specific resources for assessment

Assessment must occur in the workplace under normal operating conditions or in a simulated environment.

Method of assessment

Recommended methods of assessment include:

- verified work log or diary
- workplace assignment
- workplace referee or third-party report of performance over time.

Assessment practices should take into account any relevant language or cultural issues related to Aboriginality or Torres Strait Islander, gender, or language backgrounds other than English. Language and literacy demands of the assessment task should not be higher than those of the work role.

EVIDENCE GUIDE**Guidance information for assessment**

A current list of resources for this unit of competency is available from MINTRAC www.mintrac.com.au or telephone 1800 817 462.

Range Statement**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Meat used for rolling, sewing and netting may include:

- beef (e.g. brisket, rib sets and loins)
- pork (e.g. forequarters, foreloins, loins, legs, belly or spring)
- sheep (e.g. shoulders, forequarters, loins, breasts and legs).

Workplace requirements may include:

- enterprise-specific requirements
- Standard Operating Procedures (SOPs)
- work instructions.

OH&S requirements may include:

- enterprise OH&S policies, procedures and programs
- OH&S legal requirements
- Personal Protective Equipment (PPE) which may include:
 - coats and aprons
 - ear plugs or muffs
 - eye and facial protection
 - head-wear
 - lifting assistance
 - mesh aprons
 - protective boot covers
 - protective hand and arm covering
 - protective head and hair covering
 - uniforms
 - waterproof clothing

RANGE STATEMENT	
	• work, safety or waterproof footwear • requirements set out in standards and codes of practice.
Tying may include:	• netting • sewing • skewering • string tying.
Explanations may:	• be presented orally, in writing using standard formats or using a range of communication technology and media • include information from several sources • present information in diagrammatic, tabular, graphic or pictorial formats • require summaries of information for presentation to work colleagues • use workplace, mathematical and technical language.
Regulatory requirements may include:	• Export Control Act • federal, state and territory regulations regarding meat processing and food handling • hygiene and sanitation requirements • relevant Australian Standards.
Communication skills may include:	• interacting with people from a range of cultural, social and ethnic backgrounds and with colleagues, superiors, customers, clients and external parties • speaking clearly and directly • own work and the wider work area • reading and interpreting workplace documentation.
