Assessment Requirements for NWPGEN018 Follow environmental and licensing procedures

Release: 1

Assessment Requirements for NWPGEN018 Follow environmental and licensing procedures

Modification History

Release 1. This is the first release of this unit of competency in the NWP National Water Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes:

- completing workplace records and reports
- contributing to improved environmental practices
- following control procedures to environmental risks and incidents
- following established environmental procedures
- following relevant legislative and licensing responsibilities
- identifying and minimising environmental risks and the impact of work-related activities on the local environment
- identifying environmental protection requirements of a worksite
- identifying environmental risks at worksite and reporting to relevant personnel

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of:

- environmental impact assessment techniques
- heritage conservation awareness
- relevant community and agency roles and responsibilities
- relevant hazardous agents and preventative strategies
- relevant legislative requirements, responsibilities, policies and procedures
- relevant licensing requirements
- relevant quality performance indicators

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
