Assessment Requirements for NWPGEN019 Assess, implement and report environmental procedures

Release: 1

Assessment Requirements for NWPGEN019 Assess, implement and report environmental procedures

Modification History

Release 1. This is the first release of this unit of competency in the NWP National Water Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes:

- accessing, interpreting and applying relevant workplace procedures
- assessing and reporting environmental risks
- contributing to the continuous improvement of environmental procedures
- identifying and investigating environmental issues
- implementing control measures
- monitoring and reviewing the effectiveness of environmental procedures
- reporting environmental incidents

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of:

- community and agency roles and responsibilities
- control measure implementation
- environmental sustainability
- environmental risks and impacts
- hazards and risk control measures including preventative strategies
- heritage and cultural conservation
- relevant legislative requirements, responsibilities and procedures
- relevant primary agencies involved

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
