Assessment Requirements for NWPGEN028 Investigate and report on breaches of water industry legislation

Release: 1

Assessment Requirements for NWPGEN028 Investigate and report on breaches of water industry legislation

Modification History

Release 1. This is the first release of this unit of competency in the NWP National Water Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes:

- conducting interviews with offenders and taking notes
- identifying and investigating the source of infiltration and inflows
- identifying and reporting faults
- identifying control system faults
- investigating breaches of specific legislation
- investigating illegal inflows and discharges
- issuing correct notification of the breach to the offender
- monitoring inflows
- reporting evidence to appropriate personnel with recommendations for action
- using photographic or video cameras to gather evidence

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of:

- court protocols
- environmental aspects of systems and infrastructure
- illegal diversions
- illegal inflows and discharges
- infiltration and inflow sources
- investigation processes
- relevant legislation including local by-laws and related workplace procedures
- risk management principles

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
