Assessment Requirements for NWPIWS006 Maintain meters for rural water supplies

Release: 1

Assessment Requirements for NWPIWS006 Maintain meters for rural water supplies

Modification History

Release 1. This is the first release of this unit of competency in the NWP National Water Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes:

- applying seals
- checking and reporting meter condition
- confirming location of worksite and meter
- identifying manufacturer instructions, plans, exploded drawings and parts catalogues
- identifying verification marks
- reading and analysing meter display
- replacing components
- reporting maintenance requirements
- working with low voltage wiring

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of:

- checking pattern approval requirements
- location methods including:
 - GPS
 - maps
- manufacturer maintenance procedures for specific meter types
- meter types and accuracy limits
- relevant legislation, regulations and workplace procedures
- relevant workplace policies and procedures for water meter maintenance
- standards for non-urban metering
- work, health and safety (WHS) risk assessments

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
